You are there!

Work of Art
Lift

"This is a reference recording of natural acoustic instruments in a natural space with a feeling of being there."
- Part of a story about Soundkeeper Recordings on Positive Feedback

"Halperin leads his band, Work of Art, through ten songs on Lift, his music a wonderful combination of folk, bluegrass and country. Lift sounds about as lifelike as any recording I've ever heard."
- John Crossett for SoundStage!

*"Simply, this recording picks you up and brings you **into** the hall where the Music has been recorded. The "being there" sensation is perhaps the strongest I've ever felt while listening to a disc."*
- Lucio Cadeddu for TNT-Audio
